CONTENTS

Volume 29 (1991)

Commentary 1– 5
Computer aid in the search for missing children: study in age progression
Computerized clinical cancer resource
Computerized system to study dynamic behavior of porcine aortic valve in isolated heart preparation
J.G. Llaurado (U.S.A.)
Computer simulation of overdrive pacing during atrioventricular reentrant tachycardia
M. Malik and A.J. Camm (London, U.K.) 7–21
Blood vessel modeling
L.J. Goldstein and E.B. Rypins (Orange, CA) 23–29
Evaluation of computerised questionnaires designed for patients referred for gastro-intestinal endoscopy
R.P. Adang, F.-J.F.E. Vismans, A.W. Ambergen, J.L. Talmon, A. Hasman and J.A. Flendrig (Haarlem and Maastricht, The Netherlands) 31–44
A porous implant model for a knee joint
P.N. Tandon and A. Chaurasia (Kanpur, India) 45–59
Off-line computing of slow-phase eye velocity profiles evoked by velocity steps or caloric stimulation
D. Straumann (Zürich, Switzerland) 61–65
A fast 80X86 assembly language module to low-pass filter digital data
H. Núñez-Durán (Puebla, Mexico) 67–74
Acknowledgement to reviewers 75

Stability and bifurcation of a reaction-diffusion system
A. Hariti and Y. Cherruault (Paris, France) ..... 77—94
A computerized system for measuring time perception in human subjects
V.M. Simon, R. Redolat, A. Parra, C. Carrasco and E. Somoza (Valencia, Spain and Cincinnati, OH) ..... 95—118
OASYS: a computerized auditing system for orthopaedic surgery
M.A. Stoodley and J.M. Sikorski (Nedlands, Western Australia) ..... 119—131
Segmentation of brain CT images using the concept of region growing
T. Sandor, D. Metcalf and Y.-J. Kim (Boston, MA) ..... 133—147
Modeling autostimulation of growth in multicellular tumor spheroids
M. Marušić, Ž. Bajzer, J.P. Freyer and S. Vuk-Pavlović (Los Alamos, NM) ..... 149—158
Calendar of Events ..... 159—160

Invited Paper
Status and progress of hospital information systems (HIS)
M.J. Ball, R.I. O'Desky and J.V. Douglas (Baltimore, MD and Columbia, MO) 161–168

A brief historical overview of hospital information system (HIS) evolution in the United States
M.F. Collen (Oakland, CA) 169–189
An integrated information system for the intervention and prevention of AIDS
L.X. Li and L.D. Xu (Dayton, OH) 191–206
Computer-based evaluation of antibiotic therapy predictions
J. Zvárová, A. Jedličková and K. Zvára (Prague, Czechoslovakia) 207–213

Bubble number saturation curve and asymptotics of hypobaric and hyperbaric exposures
B.R. Wienke (Los Alamos, NM) 215–225
Kinetic description of the activation of the delayed potassium current of the land snail *Zachrysia guanensis* in terms of the Hodgkin–Huxley formalism
J.L. Hernández Cáceres, R. Grave De Peralta Menéndez, M. Castellanos Renté and A. Garateix Fleites (Havana, Cuba) 227–233
Rao's polynomial growth curve model for unequal-time intervals: a menu-driven GAUSS program
E.D. Schneiderman, S.M. Willis, T.R. Ten Have and C.J. Kowalski (Dallas, TX and Ann Arbor, MI) 235–244
Some observations on the development of a 'scoring system' in an expert system for prediction of ovulation
A. Schreiner and T. Chard (London, U.K.) 245–255
Classification of postoperative cardiac patients: comparative evaluation of four algorithms
E. Artioli, G. Avanzolini, P. Barbini, G. Cevenini and G. Gnudi (Bologna and Siena, Italy) 257–270
Evolution of the concentration field of an antibiotic during an injection
L. Gabet (Paris and Chatenay-Malabry, France) 271–281
Formula predicting survival in patients with acute myelogenous leukemia
S.J. Chung (Morristown, TN) 283–293
Erratum 295
Calendar of Events 297–298
Subject Index Volume 29 (1991) 299–301
Author Index Volume 29 (1991) 303
Contents Volume 29 (1991) 305–306
